# Background

The Audi driving experience was established to improve everyone's driving ability – from beginners to experts – by introducing people to the unique features of Audi cars, so they can experience pure Vorsprung out on the track.

The Audi Advanced driving experience teaches you practical skills for everyday driving, with lots of foot-to-the-floor exhilaration thrown in for good measure.

The Audi Sports Car driving experience puts you behind the wheel of an Audi TT and an Audi R8, as you polish your skills at top speed. Then there is the ultimate, the Audi R8 V10 experience – a full day out on the track in one of the world's favourite supercars.

All courses take place at the Dubai Autodrome and are run by qualified, professional instructors with many years of experience.

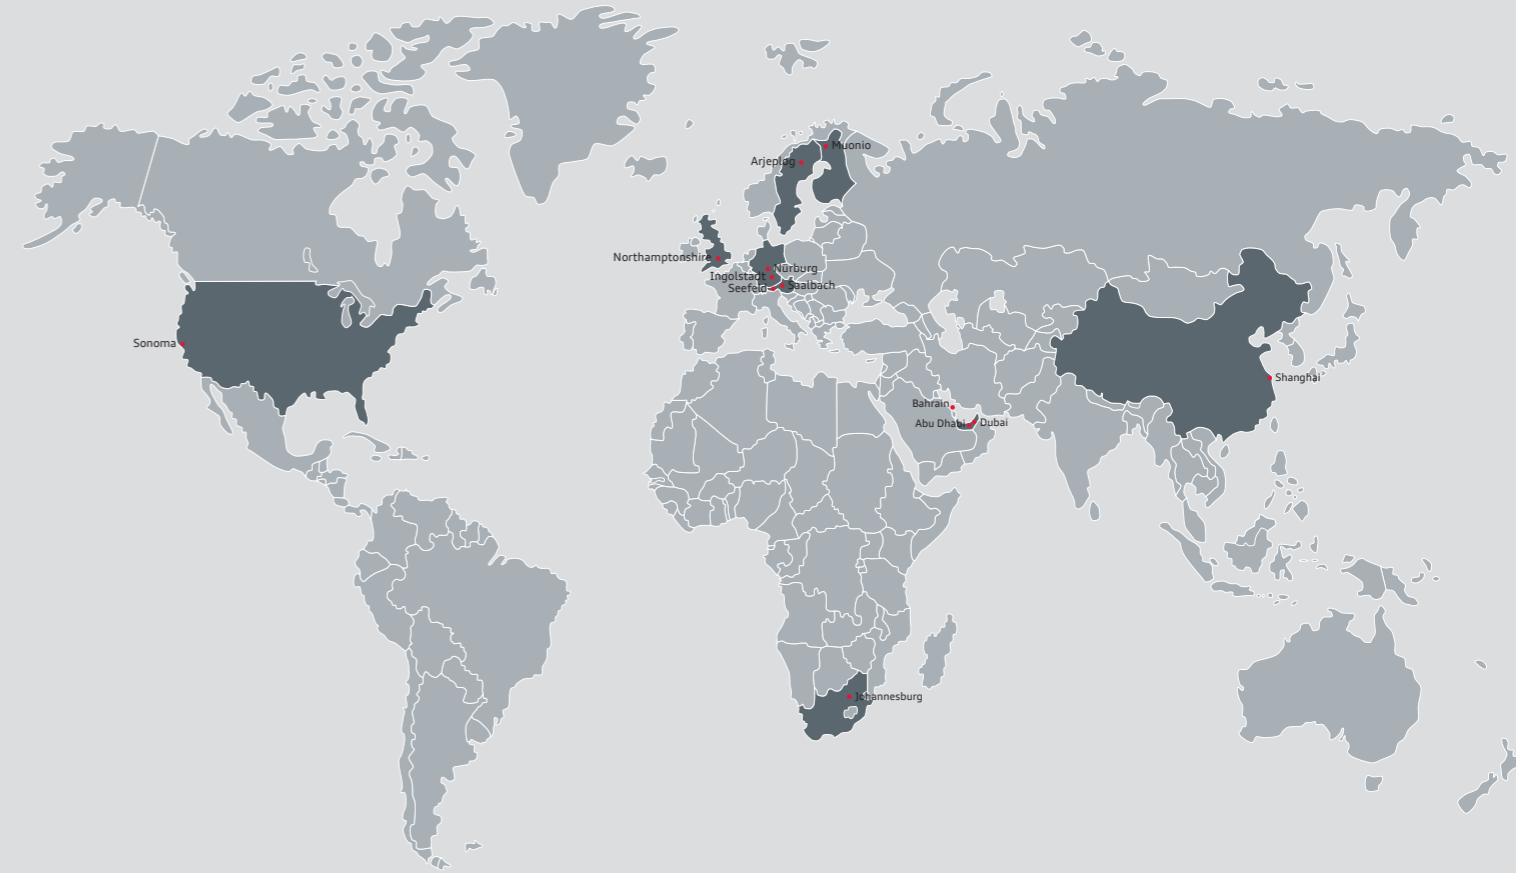

# History

The Audi driving experience was initially set up in 1983, in Audi's home country of Germany. Since then, drivers from around the world have been educated on how to control all of the Audi vehicles in our range.

You can find Audi driving experiences at some of the world's most famous racetracks such as the Nürburgring in Germany, Silverstone in the UK and the Infineon Raceway in California.

The Dubai Autodrome has hosted the Audi driving experience since early 2007 and since then many drivers in the Middle and Near East have benefited from the expertise of our experienced Audi driving instructors.

# The team

Our specially trained and highly qualified instructors, boasting a wealth of motorsport experience, are there to provide you with all the knowledge you need to enhance your driving skills.

Meanwhile, our Audi representatives will be on hand to see that you are well looked after throughout your driving experience.
